About CodeCrux

CodeCrux Web Technologies(p) Ltd. is a team of IIIT Hyderabad graduates, started CodeCrux Web Technologies(P) Ltd. in T-HUB, Hyderabad, India

We are worldwide provider of full fledged spectrum of Creative Design, Web and Mobile app Development and API Services. We have successfully delivered many projects for clients across the globe - USA, UK and Europe, Australia, Germany, India e.t.c.

We use following technologies to develop application:
Ruby, Ruby on rails, Python, AngularJS, BackboneJS, HTML5, JavaScript, CSS3, SCSS, Postgres, MongoDB, MySql, Redis, Heroku, Amazon Web Services, Mobile Development Native as well as hybrid using Ionic & React Js and many more. - See more at: http://codecrux.com/

We value the Agile approach and Scrum, which allows our clients to shape their projects during development process. Keeping product quality in top priority, test driven approach is tightly coupled into our process.
